

Formule se kucaju u samom editoru formula iz Word-a *Equation Editor* ili programom *MathType*. Parametri za unos formula su veličina 10 pt TNR, indeksi i eksponenti 8 pt, a pod-indeksi su 6 pt. Brojevi, zagrade i velika grčka slova nisu italic. Sve latinične promeljive A, B, X, Y, a, b, x, y kao i mala grčka slova α, β, γ , su *italic*, a simboli vektora i matrica $\Gamma, \mathbf{A}, \mathbf{X}$, su **TNR Bold**. Operatori i funkcije nisu italic, na primer

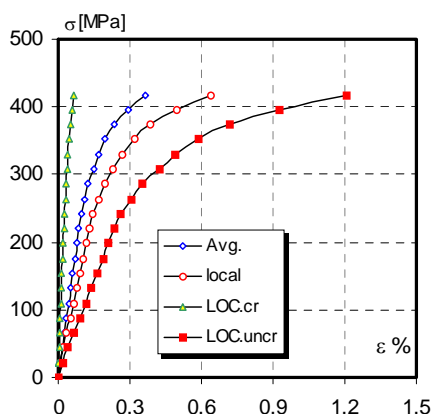

$$\sin\left(\frac{a}{b}\right), \ln(x), \max, \min, \lim_{x \rightarrow 0} f(x) \quad (2)$$

Simboli hemijskih elemenata i jedinice fizičkih veličina takođe nisu italic, na pr.

Formule se citiraju uglastim zagradama, na primer, [3].

Slike su centrirane i smeju zauzeti širinu i do dve kolone ako je to potrebno. Veličine na slikama moraju biti čitljive. Na slikama koristiti fontove veličine 8 ili 9 pt. U *template-u* postoji i style *slika*. U potpisu slike je style *potpis slike* sa fontom TNR 9 pt i preveden na engleski, a u **naslovu tabele** je style *potpis tabele* takođe sa fontom TNR 9 pt, preveden na engleski. **Slike i tabele** ne treba duplirati jer su tekstovi u njima prevedeni i na engleski jezik. Tekstovi u **tabelama** su 9 pt TNR, i centrirani po kolonama. Videti donji primer.

Slika 1. Zavisnost napon-deformacija TP1
Figure 1. Stress-strain diagram TP1.

Slike treba priložiti u posebnim datotekama, u formatu TIF, BMP, WMF, ..., za slučaj dopunske obrade, ili u formatu CDR ili PSD, ako su rađene u programima *Corel* ili *Adobe Photoshop*. Ovo se posebno odnosi na **fotografije**.

Literatura ili reference citiraju se u tekstu brojem u malim zagradama, na pr. (1-3,5,7,13). Na kraju rada se navodi **literatura** u TNR 9 pt. Koristiti automatsku numeraciju sa *style-om literatura*. Videti donji primer.

LITERATURA – REFERENCES (*heading 2*)

1. Essamei, M.A., Doctoral thesis, Faculty of Mechanical Engineering, University of Belgrade. (2000)
2. Read, D.T., McHenry, H.I., *Postweld heat treatment criteria for repair welds*, 5th IFMASS, ed. S. Sedmak, EMAS, UK, 1990, p. 235.

Equations are to be prepared with Word's *Equation Editor* or by *MathType*. Parameters for equation typing are the size 10 pt TNR; subscripts and superscripts 8 pt, sub-subscripts are 6 pt. Numbers, parentheses and capital Greek symbols are not italic. All latin type variables A, B, X, Y, a, b, x, y as well as small Greek symbols α, β, γ are *italic*, and the vector and matrice symbols $\Gamma, \mathbf{A}, \mathbf{X}$, are in **TNR Bold**. Operators i functions are also not italic, e.g.

$$\sin\left(\frac{a}{b}\right), \ln(x), \max, \min, \lim_{x \rightarrow 0} f(x) \quad (2)$$

Symbols of chemical elements and units of measure for physical quantities are also not italic.

Equations are cited in angular parantheses, e.g. [3].

Figures are centered and may take the space of both columns if it is necessary. The text on figures must be readable. Please use font sizes 8 or 9 pt on figures. This *template* example has a pre-defined style *potpis slike* for the **figure captions** of 9 pt TNR, and also the style *potpis tabele* for **Table captions** in TNR 9 pt. **Figures and Tables** must not be duplicated when the paper is presented in both Serbian and English. The text in **Tables** is TNR 9 pt, and is centered in table columns. See examples below.

Tabela 1. Geometrijski podaci (mm)
Table 1. Geometry data (mm).

		Velika- Large	Mala- Small
Površinska prslina	Surface crack	LSC	SSC
Dubina prsline	Crack depth	a	2.5
Dužina prsline	Crack length	$2c$	8
Vrh prsline	Crack tip	r	0.1
Dužina MŠ	WM length		2

Figures should be prepared in separate graphic files, TIF, BMP, WMF, ..., in case of additional treatment, or in formats CDR and PSD, if they were created in *Corel* or *Adobe Photoshop*. This particularly concerns **photos**.

Literature or references are cited in the text by number in small parantheses, e.g. (1-3,5,7,13). List the **References** (or **literature**) at the end of paper in TNR 9 pt. Use automatic numbering with the *style literatura*. See the example in the left column..

Napomena: originalni rad će biti preformatiran, a neke kolor slike štampane u grayscale (po odluci urednika).

Note: the original as-received document may be additionally formatted, and some colour illustrations may be printed in grayscale instead (editors' choice).
